

Chapter 1

MANUFACTURED STRUCTURES

Listing by BSAR

Manufactured structures are listed under a service designated as *Listing by Building System Acceptance Report (BSAR)*. The description of said product(s) or construction, and information referencing proper field assembly and/or installation are contained in the current BSAR. The PFS acceptance number associated with the BSAR is listed with each manufacturer in this chapter.

The manufactured structures are certified to a model building code and/or a federal, state or local code.

Look for the PFS label and reference to the PFS acceptance number on the manufacturer's data plate as evidence of compliance with the accepted documents. A state label may be required in addition to the PFS label, depending on the state requirements.

Note: Where a superscript number 1, 2 or 3 (^{1,2,3}) appears after the client's listing in the following pages, please refer to Page 2 of the Table of Contents for a written explanation.

(Look for this Certification Mark)
