**Chapter 12**

**FORMALDEHYDE EMISSIONS OF WOOD PRODUCTS  
(HUD PROGRAM)**

---

---

Listing by Trademarking

In this chapter, Wood Products are listed under a service designated as *Listing by Trademarking*. Plywood and particleboard panels used in HUD manufactured homes under the *Federal Manufactured Home Construction and Safety Standards* must meet the formaldehyde emission requirements outlined in *Section 24 CFR 3280.308*.

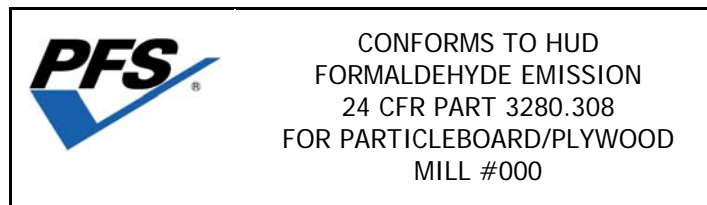

PFS provides testing that follows the procedures outlined in *Section 24 CFR 3280.308* which references *ASTM E 1333-96* for qualification testing. Intermittent production monitoring tests are conducted per *ASTM D5582-00 (2006)*.

Once the panels are certified to meet the emission requirements, PFS provides periodic inspection and monitoring service.
